## A STENERSON LUMBER PUBLICATION

### STENERSON SPOTLIGHT ON SERVICE

Michelle Dean is our new bright and friendly voice at the other end when you call our Detroit Lakes store. She has been helping us in the sales and service department since last fall. Michelle loves to work with people, customers and coworkers alike, and it shows in her friendly, outgoing rapport. With many years of experience at a building products and millwork distribution center, she fields orders, completes purchase orders, and treats customers like a pro. She is excited to learn all about our StenerSON Lumber product mix, the application of those products, and ways she can better help our customers. She makes her home with her family on a small lake near Dent, very near where she grew up. She spends a lot of time carting her children, an 18-year old son and two daughters - 13 and 4, to sporting events and school functions. She also enjoys swimming, kayaking, boating, and just plain being outside when she can. Michelle can be found at the Detroit Lakes store at 218-847-2188.

### \*\* CALLING ALL DECK-BUILDERS \*\*

Are you a quality deck-builder? Would you like your name to be recommended to homeowners ready to build a deck? Could you take advantage of special offers and sales aides tailored to your area of expertise? If so, call in to get yourself added to our “DecksperT” Contractor Referral List. We plan to collect basic information for each contractor to help home and business owners in making a sound decision for their improvement. This will be a regional list of licensed contractos and non-licensed handymen throughout west-central MN and ND. If you build decks, we’d love to partner with you! Call Kent now at 218-233-2754 to be included as a “DecksperT” before our spring decking sales are announced!

### APRIL STENERSON SPECIAL

**Buy 12 or More Vector Windows  
GET 1 FREE  
SLIDING PATIO DOOR**

These doors coordinate with Vector windows perfectly. The fully-welded framed provides extra strength and performance. A rolling screen keeps the bugs out and choices of finishes and hardware agree with every décor.

**VECTOR**  
WINDOWS & DOORS

Limit 1 per customer/contractor. Order must be placed in April and delivered by May 15 to qualify for free door. Hinged doors and custom sizes do not apply. Ask your salesman for the April special!

### CLEARLY, OUR QUALITY CHOICE FOR VINYL WINDOWS IS VECTOR

Looking for a quality vinyl window with local service to back it? Look no further, here in Fergus Falls, we have a great window manufacturer right in our own backyard with Vector windows. Formerly known as Vinylite, Vector has built their reputation on crafting quality windows and patio doors with an exceptional commitment to service. With standard double-pane, LoE coated, double-strength glass separated with a non-metallic spacer in each window, Vector windows exceed Energy Star standards and offer high energy-efficiency to the home.

Vector offers two window lines to meet the needs of every project. The Advantage Series offers a 2-11/16" frame depth, perfect for new construction applications. These windows and doors are fusion-welded and hand-finished without cutting corners. The Diplomat™ Series offers an upgraded 3-1/4" frame depth with an enhanced architectural profile. This product line also features a fusion-welded frame & sash panels and is tested to wind speeds of nearly 175 mph. The Diplomat™ window is equipped with more finish choices and accessories including an integrated J-channel/brickmould system and wood-grain laminate interior finishes.

Vector windows are constructed in all of the popular styles: casement, awning, single-hung, double-hung, glider, bay, bow, and special shapes. They can be completed and delivered from your custom order in less than two weeks. Although we hope that you don't ever need service for your windows, we have found that Vector's service is second-to-none and we even recommend their service for repair of other window lines that are no longer under warranty with the manufacturer. Service requests can be made on-line and Vector will follow up on each request in a timely manner. For the original purchaser, Vector windows carry a lifetime warranty against seal failure, faulty frame & sash, and hardware failure. Labor is also covered should something happen within the first two years. Warranty coverage for subsequent homeowners is also offered, but coverage differs from the original warranty after the first ten years.

In our Stenerson Lumber showrooms, we have multiple displays where you can view and operate each of the windows. You can see how they're made, pick your colors, and get installation tips. Give us a call or stop in and ask to see Vector windows. Don't forget to take advantage of the April special with a free patio door!

### BE A TRICKSTER! HARMLESS APRIL FOOLS' PRANKS

1. Put out a bowl of Skittles, M&M's, and Reeses' Pieces mixed together.
2. Rubber band the sprayer on the kitchen sink to the "on" position.
3. Fill donuts with mayonnaise, then refill the mayo jar with pudding.
4. Twist the tabs on the soda cans 180 degrees so they will not open.
5. Put a piece of electrical tape or post-it on the laser of someone's mouse.
6. Paint a bar of soap with clear nail polish so it won't lather.
7. Make "orange" juice with a Mac-n-Cheese flavoring packet.
