A STENERSON LUMBER PUBLICATION

STENERSON SPOTLIGHT ON SERVICE

Liz Hofmann, our newest addition to StenerSON Lumber in Crosby, is settling in easily to her new drafting/design/estimating position. A recent graduate from NDSOS, she has been interning for some time at a cabinet shop in Brainerd. Liz also has plenty of people experience, having worked for a local establishment on Bay Lake, the White Hawk Bar and Restaurant. Liz enjoys working with people to put their ideas and hopes into a customized home plan. She can combine elements of various plans to create a functional home that fits the client's personality or start a dream-home from scratch. She finds it especially rewarding to surprise a customer with a design exceeding their imagination. While currently working on a few sets of plans, she finds herself liking the drawing aspect of her job, but loving getting to know the people and working with them. At home, Liz serves on the Crosby City Council and chases after her two boys, ages 3 and 5. She is a lakes person, she loves the outdoors and if time allows she can be found four-wheeling, camping, and taking in the fresh air. Liz can be reached at the Crosby location at 218-546-6535.

OPENING THE DOOR TO BAYER BUILT'S PRODUCT LINE

For July's Lunch and Learn sessions, we have invited Bayer Built, a MN-based millwork distributor to showcase their products. They will focus mainly on their exterior door features and their pre-finishing services. Bayer Built offers beautiful wood, fiberglass, and steel doors that are built to withstand our harsh climate. Their system works so well to ward off the elements, that they have branded their system of components. Come and check out the multiple finish, glass, and hardware options available in these quality doors as well. Bayer Built is proud of their pre-finishing services and are excited to spread the word. All of their pre-finishing is done in-house at a separate facility from other production areas, ensuring a pure, durable finish. They offer many different stain/paint colors, distressing options, and can even custom blend a color. Please join us for a quick lunch and learn about Bayer Built's products and services.

Tuesday, July 12 in Moorhead
Wednesday, July 13 in Fergus Falls
Thursday, July 14 in Detroit Lakes

The free lunch is offered at each location from 11:30 am – 1 pm. Bayer Built plans to bring their display trailer with them; you are welcome to browse their mix of interior and exterior doors, toppers, closet shelving, stairparts, and moulding throughout the session. This is a great traveling showroom to compare products. For more information on July's Lunch and Learn or any others, please contact your Stenerson Lumber salesperson. For more information on Bayer Built's products or services, visit their website at www.bayerbuilt.com.

IDIOT SIGHTINGS: THEY WALK AMONG US

At the Bank: Handing the teller at my bank a withdrawal slip for \$400.00, I said "May I have large bills, please." She looked at me and said "I'm sorry sir, all of the bills are the same size."

At the Dealership: When my wife and I arrived at an automobile dealership to pick up our car, we were told the keys had been locked in it. We went to the service department and found a mechanic working feverishly to unlock the

driver's side door. As I watched from the passenger side, I instinctively tried the door handle and discovered that it was unlocked. "Hey," I announced, "it's open!" The technician's reply: "I know. I already got that side."

At the Restaurant: My daughter went to a local quick-stop taco-shop and ordered a taco. She asked the person behind the counter for "minimal lettuce." He said he was sorry, but they only had "iceberg lettuce."

At the Airport: I was at the airport, checking in at the gate when an airport employee asked, "Has anyone put anything in your baggage without your knowledge?" To which I replied, "If it was without my knowledge, how would I know?" He smiled knowingly and nodded, "That's why we ask."

At the Office: I work with an individual who plugged his power strip back into itself and for the sake of his life, he couldn't understand why his system would not turn on.
